

Hose Fittings

SEE BELOW

A variety of fittings are available on our umbilicals. All fittings are brass and are swaged onto the hoses at the Amron facility. All connectors are stress-tested before shipping.

Hose Barbs

SEE BELOW

All AHB (Amron Hose Barbs) are the safest hose fittings for diver's umbilicals. Available in Oxygen or JIC (SAE) brass swivel nut. Brass barbs are 2 or 2-1/2 inch long for maximum penetration into the hose. Barbs are attached with two or three stainless bands. Manufactured by Amron to the highest standards.
