

ESS's Flagship Interchangeable-Lens Combat Sunglass

The ESS CDI™ is a lightweight, high-impact sunglass unlike any other. The CDI's extra-thick polycarbonate lenses can be easily interchanged for quick adaptation to your environment. A high-speed, low-drag frame and shatter-resistant lenses make the CDI™ comfortable and cool enough for downtime, yet functional and rugged enough for the battlefield. Includes two sets of high-impact lenses, a protective case, an elastic retention strap, and a micro-fiber cleaning cloth.

Lenses

- Lenses feature **ESS ToughZone™** anti-scratch lens coatings
- Lenses are highly impact resistant, and exceed the U.S. Military's .15 caliber ballistic impact test MIL-PRF-31013
- The **ESS Lateral Exchange System™** allows for rapid interchange of lenses
- Both Clear & Smoke Gray 2.2mm polycarbonate high-impact lenses included
- Replacement lenses also available in Hi-Def Yellow, Rose Copper, Mirrored Silver, & Polarized
- Thanks to **ESS Modular Technology™**, replacement lenses are inexpensive & easy to switch in/out
- All lens colors provide 100% UVA/UVB protection & precise optical clarity for distortion-free vision

Frame

- Black frame material is highly impact-resistant & durable
- Extra-wide temples increase side coverage
- Non-slip Megol™ temple pads increase retention
- NEW!!! Holes in temples accommodate elastic retention strap

Rx Insert

- Prescription lenses can be fit by any optometrist into the **CDI™ Rx Inserts**, which slide into the sunglass frame

- **Model #: ESGCDIYBK**
