New Face Mask Design

STOCKHOLM March 30, 2012

ANNOUNCEMENT

Introduction of new design on grey and yellow face masks.

APPLIES TO

All grey and yellow face masks for both diving and fire fighting.

DESCRIPTION

From April 2012 we will successive change the design of the SPIROMATIC face mask in silicone rubber and the grey and yellow DIVATOR full face masks. The SPIROMATIC face mask in natural rubber will be changed later during summer 2012. We will change the color of the plastic details and the rubber harness and inner mask. As shown on the pictures below those details will be black.

From April 2012 grey spare parts for DIVATOR, SPIROMATIC and S-Masks will be discontinued and replaced by black spare parts. A few of the grey parts will still be available as spare parts for two years. See list below for more detailed information.

The reason for the change is to reduce the number of parts used in production and parts used as spare parts. By doing this we can also produce the black parts more efficiently.

By reducing the number of parts we, and our customers, can handle our product range more efficient and delivery times can be kept down.
