The slim-profile design of the Revision Bullet Ant Tactical Goggle provides optimal facial fit, high-impact protection, wide field-of-view, plus helmet and night-vision gear compatibility. Equally comfortable with the strap worn over or under the helmet, the hexo-vents permit maximum ventilation, without any adjustment, for fog-free performance and fine particle filtration. Clear, neutral gray and high-contrast lenses allow for visual clarity in various light conditions.

THE BULLET ANT TACTICAL GOGGLE SYSTEM

- RESILIENT Pliable material engineered for facial comfort and durability in any weather condition
- HIGH-IMPACT PROTECTION Shields eyes from unexpected fragments
- TOUGH Resists a wide variety of chemicals, including DEET
- CLEAR VISION Optically correct, non-distorting polycarbonate lenses are scratch/fog resistant; block 100% harmful UV-A, UV-B and UV-C
- INTERCHANGEABLE Lenses can be interchanged for various light conditions
- PRESCRIPTION READY Optional Rx insert available
- OPTIMAL VIEW Unobstructed vision, compatible with night-vision gear and binoculars
- HEXO-VENTED Full frame ventilation and air flow minimizes fogging
- ADJUSTABLE Adjustable strapping system is equally comfortable over or under helmet
- COMPACT Slim-profile fits properly with forehead-hugging helmets

BULLET ANT TACTICAL GOGGLES: BUILT BATTLE TOUGH, BUT COMFORTABLE

- Meets U.S. Military eyewear ballistic impact requirements (MIL-PRF-31013, clause 3.5.1.1) (MIL-V-43511C, clause 3.5.10)
- Certified to ANSI Z87.1-2003 Standard
- CE certified in accordance with EN 166, EN 170 and EN 172
- Cage Code: 30VZ5

BE REVISION READY.

YOUR VISION IS IMPORTANT – DON'T RISK LOSING IT

Battlefield eye injuries are increasing but over 90% of eye injuries are preventable. On active duty or in training, protective eyewear is a necessity. The Bullet Ant Tactical Goggles protect your eyes and provide a field-of-view that is ideal in all firing positions. Compatible with night-vision gear and binoculars.

GOGGLE FRAMES – COMBAT GRADE

Strong, flexible frames have a non-reflective matte finish that's perfect for military and law enforcement missions. Designed for comfort, Bullet Ant eyewear is equally suitable for short-term tactical use or longer-term wear when on regular patrol.

OPTICAL PERFORMANCE

Revision's Bullet Ant Goggles come with interchangeable lenses made from the best optical-grade polycarbonate. These lenses provide maximum visual clarity without distortion. That's important for target accuracy and peak performance.

ALL LENSES PROVIDE 100% UV-A, UV-B AND UV-C PROTECTION. LENSES INTERCHANGE EASILY WITHOUT ANY TOOLS.

HIGH IMPACT LENSES

- NEUTRAL GRAY LENSES Reduce extreme glare and squinting. *Use outdoors in extreme glare and bright conditions.*
- CLEAR LENSES Maximize light transmittance. *Use indoors or at night.*
- HIGH-CONTRAST LENSES* Provide crisp definition in low-light conditions. *Use during dull, cloudy or hazy conditions.*

HIGH IMPACT SPECIALTY LENSES

- POLARIZED LENSES Blocks glare caused by light reflections on flat surfaces such as water, roads, sand and snow. *Available by special order.*
- LASER PROTECTIVE LENSES Wavelength must be specified by customer. *Available by special custom order.*

CONVENIENT STORAGE

Each set comes in a rugged storage case to protect your goggles and extra lenses when not being used.

BULLET ANT TACTICAL GOGGLES

Deluxe Kit includes frame with over or under helmet adjustable strapping system, clear, neutral gray and high-contrast lenses, and rugged storage case.
