

LOCKING SLEEVES

PART NUMBERING

A SIZE	-	FLS (F) FEMALE OR (M) MALE LOCKING SLEEVE	-	D MATERIAL
				(D) DELRIN, BLACK - STANDARD (S) STAINLESS STEEL (B) BRONZE; CA 630 (X) LONG (TI) TITANIUM

SEA CON®S range of locking sleeves are available in Black Delrin (D), standard, previously standard: plastic or stainless steel(S). as shown on next page. Other materials may be available by special order.

USES: Assists in avoiding accidental disconnection. The long locking sleeves are used to minimize flexing stress being applied to the electrical conductor terminations when the cable is flexed.

Notes: Cable diameter must be specified when ordering (long -X) Locking Sleeves.
X Size only uses 1/2 inch cable or smaller.

*DISCLAIMER NOTICE: Amron reserves the right to supply this style from multiple manufacturers.
