## Viking Adhesive & Hardener Shelf Life

17<sup>th</sup> June 2019

**Product : Viking 91 adhesive. Art number K06 009 110 1 Lt. tins**

The manufacturer of this adhesive tells us that the shelf life for unopened cans is 28 weeks.

Ansell's experience indicates that you can expect a shelf life of 2 years. As long as the tins remain unopened, the adhesive will still be good to use up until this period of time.

Once a tin has been opened, used, and closed again, the adhesive will be useable for up to 6 months maximum.

**Product : HARDENER, 20 ML : K01786903**

The shelf life for this product which is used in conjunction with the above adhesive is maximum 5 years.

Phil Joy

A handwritten signature in blue ink, appearing to read "Phil Joy". The signature is stylized and fluid.
