## DESIGN

Our FR Combat Apparel features our innovative High Strength Commando Twill™ fabric in the sleeves. Constructed with inherently FR fibers, it is incredibly light yet strong. Torso constructed with lightweight, high performance, flame-resistant jersey fabric. Designed to be worn under body armor. Zippered shoulder pockets are low profile and engineered to reduce bulk while still allowing room for all essential gear. Zip collar for easy donning/doffing. Flame tested on NC State's Pyroman (in accordance with ASTM F1930) for an optimized thermal protection level. Designed for use with our removable **AIRFLEX™ IMPACT ELBOW PADS** (sold separately). Made in US from US materials. [WWW.LWPATENTS.COM](http://WWW.LWPATENTS.COM)
