Sherwood Brut

SRB-7100

The Sherwood Brut maintains its dedication to rugged reliability combined with the ease of maintenance, and is redesigned to provide outstanding breathing performance as well.

Features

- Balanced-piston first stage for constant intermediate pressure control over a large range of supply pressures
- Dry-Sealed™ spring chamber maintains clean interior and preventing first stage icing in cold water
- High capacity inlet filter
- Four LP ports and two HP ports for versatile hose routing options

Second Stage Features

- Larger diaphragm for optimal response to inhalation
- Larger exhaust valve for decreased exhalation resistance
- Resilient silicone rubber seat
- Precision - ground stainless steel cam and Delrin lever for smooth effortless breathing
- High impact housing for rugged applications

Sherwood Brut Includes

- First Stage Regulator
- Second Stage Regulator
- First and Second Stage Hoses
- User Manual
