## DESIGN

The **JPC (JUMPABLE PLATE CARRIER) 2.0™ MARITIME** is a lightweight and minimal armor vest designed for maximum mobility, weight savings, and packability. At just over one pound for the entire carrier, the **JPC 2.0™ MARITIME** offers a variety of configuration options to suit an operator's needs in terms of protection, modularity, and comfort. It features our Skeletal™ cummerbund system with our Integrated Attachment System (patented) that allows pouches to be mounted on both the inside and outside of the cummerbund. This system sheds unnecessary weight and bulk while improving overall ventilation. This vest fits **SAPI CUT ARMOR**, for **SWIMMER CUT ARMOR** see **JPC 2.0™ MARITIME SWIMMER CUT**. Made in the US from US materials.
